AVerVision CP355
Portable Document Camera

AVerMedia®

Product Description

The incredibly powerful AVerVision CP355 Interactive Document Camera provides an enhanced teaching environment in a compact solution. . The CP series of document cameras has a robust flexible neck ideal for displaying and capturing images at any angle. This new design with patented camera head locking mechanism increases portability while adding security to the camera head whether being stored, or moved from class to class. This feature-packed FlexArm document camera touts a 3.2 mega pixel camera head and Auto Focus for an exceptionally clear image as well as a strong 80x total zoom including 5x optical zoom capability to highlight the smallest details. New to the CP series is the wide-angle mode for a 15"x 11" viewing area, great for showing larger documents or objects. The 3.2 MP true image capture offers the sharpest print out. The CP355 seamlessly integrates with the new AVer+ software for advanced annotation, audio & video recording as well as network sharing for showing demonstrations to multiple classrooms over a local area network. These amazing features as well as exclusive AVer Presentation tools make the compact all-inclusive CP355 solution the perfect classroom presentation tool.
